# Prometheus Inc.

ist aktuell die einzige von der SEC  
in den USA registrierte  
Crypto Securities Platform.

ETH soll nun als  
1tes Produkt gelauncht werden.

Prometheus is registered to custody crypto securities and isn't in the commodities business. Ben Kaplan said the firm will go with whatever the SEC's word is on ETH.

"The CFTC is not our regulator," he said. "When the SEC says to us, 'It's not a security,' then we'll be troubled."
