

Ist ETH ein Security – JA oder NEIN?

Die CFTC hat dazu eine klare Meinung – NEIN.

Rostin Benham

Chairman Commodity Futures Trading Commission

009

“Year-old decision where these markets are functioning well under the decision and conclusion Ether is a commodity.”

024

“ Constituting Ether as a Security would then put our registrants, our exchanges who list Ether as a futures contract sort of in noncompliance of SEC rules.”

“I’m working with Chair Gensler ... that they understand what the consequences would be.”
